

# Overview

The screenshot displays the Fider Demonstration interface. At the top, there is a header with the Fider logo and the text "Fider Demonstration" on the left, and "SIGN IN" on the right. Below the header, the main content area is divided into two columns. The left column contains a feedback form with the following text: "Use this space to try out how Fider works", "Visit [fider.io](\"#\") to learn more about this project, and sign up for a free trial.", "If you have any suggestion on how to make Fider even better, raise your voice at our [Official Feedback](\"#\") forum.", and a text input field labeled "Try it out here...". Below the form is a "Powered by Fider" logo. The right column displays a list of posts, each with a vote count, a title, and a snippet of text. The posts are: 1. Title: "Hello this is a test wow", Snippet: "sqmldkf", Votes: 3. 2. Title: "testy - dddd", Votes: 1. 3. Title: "Test wie hehen djdkd", Snippet: "Finde es gut", Votes: 2. 4. Title: "test test test test test test", Snippet: "test", Votes: 5. 5. Title: "comment t'appelles-tu?", Votes: 2. 6. Title: "hello yellow", Snippet: "testers", Votes: 1. 7. Title: "Making a post!", Snippet: "Can we share resources with each other via fixer?", Votes: 1. 8. Title: "best gyros in Athens ?", Snippet: "Where is the best gyros in athens ?", Votes: 1. 9. Title: "ajouter un nouveau post", Votes: 1. 10. Title: "hello folks", Snippet: "just testing here !", Votes: 1. 11. Title: "Demo Title: Fancy Text Generator", Snippet: "Demo Text: Use Fancy Text Generator to create stunning text for your social media posts.", Votes: 3. Above the list, there are controls for "FILTER", "SORT BY: TRENDING", and a search bar.

[Fider](#) is a platform for collecting and prioritizing project feedback that enables users to share in the process.

Tryout an [Fider demo](#).

- Help your community share feedback, vote on what's important to them and discuss the finer points.
- Keep everyone up-to-date when you start or complete a feature based on community feedback.
- Customize with your own CSS or integrate with your existing communication services.
