

Overview

The screenshot shows the LazyLibrarian web interface. At the top, there is a navigation bar with links for Home, eBooks, Series, AudioBooks, Magazines, Manage, History, Logs, Config, and Help. Below the navigation bar, there are buttons for 'Refresh Active Authors' and 'Show Inactive Authors', and a search bar for 'Title / Author / ISBN'. The main content area is titled 'Authors' and features a 'Mark selected as' dropdown menu set to 'Active' and a 'Go' button. There is also a 'Toggle' section with options for 'Image', 'Author', 'Added', 'Latest', 'Released', 'Downloaded', and 'Status'. A 'Filter: Results title' input field is present. The main table displays a list of authors with columns for Image, Author, Added, Latest Book, Released, Downloaded, and Status. The 'Downloaded' column shows progress bars and the number of items downloaded out of the total available.

LazyLibrarian is an (audio)book and magazine collection manager that downloads media while keeping everything organized.

- Integrate with Prowlarr and handle all your download searches through one central service.
- Import an existing Calibre book library to keep your media library synchronized.
- Compatible with metadata pulled from HardCover, OpenLibrary, LibraryThing, GoodReads, and Google Books.
