- [Installation](#)
- [Updating](#)

Preparation

There are some things we need to do in preparation to install this service.

Capabilities

SYS_PTRACE

This grants the container access to tracing currently running system processes.

Installation

The service can be installed through the Portainer web interface.

Learn about creating a new stack.

Docker Compose

Use the following code to install the service:

```
---
services:
  ward:
    restart: unless-stopped
    container_name: ward
    ports:
      - '4000:4000'
    environment:
      - WARD_PORT=4000
      - WARD_THEME=light
      - WARD_NAME=Ward
      - WARD_FOG=true
      - WARD_BACKGROUND=#3c3c3c
    cap_add:
      - SYS_PTRACE
    image: antonyleons/ward
```

Updating

This service has been optimized for running in Docker.

This allows you to re-deploy the stack through Portainer to download the latest updates.
